

Innovative multi-million dollar investments in green power plants, bio-refineries, new crops, novel farming systems and agricultural infrastructure! Together with our grower partners, MSF Sugar is forging ahead with a re-imagining of the sugarcane industry.

MSF Sugar is an integrated grower, processor, marketer and exporter of raw sugar. We are Australia's largest sugarcane farmer, second largest raw sugar exporter and third largest miller with a 124 year heritage in Australia.

Project Engineer - Electrical 12 month fixed term

An exciting opportunity has arisen for an experienced Project Engineer for a 12 month fixed term role to develop and implement strategic revenue improvement projects at our Mulgrave Mill site in Gordonvale, approximately 20km south of Cairns.

This role is part of the MSF Sugar Business Development team but will work closely alongside the Mulgrave Mill Engineering team to develop the scope and business case for the projects. You will then be accountable for the concept development, preliminary and detail design, implementation of the project, commissioning, handover and associated reporting during the project life cycle.

The successful applicant will have the following qualifications and experience;

- Electrical Engineering qualifications with control systems experience
- Minimum 3-5 years post graduate (or equivalent experience) in a project management in a heavy industrial environment
- Demonstrated working knowledge and application of Project development and Project Management processes and tools

We offer a supportive and positive team environment and an attractive remuneration package, commensurate with skills and experience. This role is an exciting opportunity to be part of a major player in Australian agribusiness.

Further details including the position description for this role is available on our website. Applications to be emailed to careers@msfsugar.com.au
