

## Position Vacant

### ***Safety and Environment Advisor South Johnstone Mill***

Applications are invited for the position of Safety and Environment Advisor to join the MSF Sugar team. This position is located at our South Johnstone Mill, 20 minutes outside of Innisfail.

The S&E Advisor role is designed to champion company S&E initiatives and manage and maintain the MSF Sugar safety management system at a local site level. The S&E Advisor will provide advice and support to the site management team to ensure regulatory compliance and continuous improvement in areas relating to safety and environment.

The successful applicant shall possess expert knowledge and skills to identify areas of risk and facilitate risk control by implementing measures to mitigate risk and contribute to a safer work environment.

The S&E Advisor is expected to be involved in the day to day operations of the business including, fostering S&E activities across the site, facilitating employee safety committee meetings, coordinating risk assessments and incident investigations, developing procedures and providing up to date regulatory advice and support to employees across all aspects of the site operations.

Ideally, the successful applicant will have:

- Formal qualifications in an appropriate discipline.
- 5 + years' experience in a safety or similar role
- Experience maintaining a safety management system
- Experience in delivery of S&E training programs
- Investigation and report writing skills
- Capacity to develop procedures
- Ability to influence others to achieve a positive safety culture
- Negotiation and tactical skills to implement change
- High level computer skills
- First aid certification and experience
- Experience in return to work and rehabilitation for injured workers

MSF Sugar offers a supportive and positive team environment. This is an exciting opportunity to be part of a major player in Australian agribusiness.

Applicants may be required to undergo pre-employment medical and drug and alcohol testing.
